

FE 130-EN54

- high-quality material
- proven solution
- ideal complement for DL EN54

The FE 130-EN54 is a fire dome in a full metal design in white. This product can be used instead of the high-quality PET-plastic contact protection for DL-E 06-130/T-EN54. The product will be delivered with rubber grommets and installation screws.
