Mounting Instruction

1. Create the necessary ceiling cut-out and check the installation depth.
2. Unscrew the butterfly screw of the contact protection.
3. Remove the contact protection of the loudspeaker.
4. Push the incoming cables through the cable entries of the contact protection.
5. Connect the loudspeaker cable to the terminals 100V and COM.
   If necessary, select a different power tapping.
6. Place the contact protection back on the loudspeaker and fix it with the butterfly screws.
7. Fold up the speaker's leg spring and insert the speaker into the ceiling cut-out.
8. Press the speaker into the ceiling until it is flush with the ceiling cut-out.

Please note: To avoid damage, we recommend loosening the cable lug with a flat-blade screwdriver when changing the cable to a different power tapping.
