Mounting Instruction

1. Mount the mounting plate/enclosure rear panel on the wall or ceiling using the screws suitable for the surface.
2. Insert the loudspeaker cable through the cable entry of the mounting plate/rear wall of the housing.
3. Connect the speaker cable to the 100V and COM terminals. If necessary, select a different power tapping.
4. Place the baffle on the mounting plate/rear panel of the enclosure and secure it with the enclosed screws.

Please note: To avoid damage, we recommend loosening the cable lug with a flat-blade screwdriver when changing the cable to a different power tapping.
